IMPORTANT! There are two different Electronic Assemblies available for servicing this tool. It is important to identify which Electronic Assembly is in your tool because the Housing Assembly and Fwd./Rev. Shuttle are UNIQUE to each switch design. To identify at a glance, one assembly is built with a switch that has a silver rivet on the side of the switch body, the other switch has none (see page two).

Electronic Assembly No. 14-20-0093 can be identified by a silver rivet on the side of the switch body, order the following parts:

FIG.	PART NO.	DESCRIPTION OF PART	NO. REQ.
38	45-24-0130	Forward / Reverse Shuttle	1
70	14-20-0093	Electronics Assembly (Switch with rivet)	1
73	31-44-0869	Housing Assembly	1

Electronic Assembly No. 14-20-0097 can be identified by the absence of a silver rivet on the side of switch body, order the following parts:

FIG.	PART NO.	DESCRIPTION OF PART	NO. REQ.
38	45-24-0022	Forward / Reverse Shuttle	1
70	14-20-0097	Electronics Assembly (Switch without rivet)	1
73	31-44-0879	Housing Assembly	1
